EXPERIENCE

Solutions Delivery Intern

May 2025 – Dec. 2025

Geotab – Product Management

- Built **internal web tools** using Google Apps Script, BigQuery SQL, HTML/CSS/JS, and Google Sheets API, reducing manual data work by **~30%**.
- Created a **BigQuery metadata search tool** with basic NLP and custom UI scripting during an internal hackathon, improving access to **200+ datasets**.
- Developed **automation for prototype tracking and alpha testing**, integrating Google Sheets with BigQuery to streamline stock management and reporting across multiple products.
- Coordinated with product managers and cross-functional teams to translate business requirements into actionable data pipelines, reporting solutions, and feature flag workflows.

Graphics & Automation Intern

Jan. 2024 – Aug. 2024

AMD – Technical Marketing Labs

- Automated GPU benchmarking workflows with **Python**, streamlining execution of **300+ performance scripts** and reducing manual testing by **~60%**.
- Maintained **Java, SQL, and CLI utilities** for parsing logs, summarizing results, and validating regression tests.
- Collaborated with hardware engineers to investigate performance anomalies and ensure driver releases met quality and stability targets.
- Built **dashboards to visualize benchmarking results**, enabling faster decision-making for driver releases.

Automation & Data Tools Intern

May 2023 – Aug. 2023

Bombardier Aerospace – Supplier Quality Management

- Automated compliance reporting using **TypeScript** tools and Excel/VBA macros, cutting manual work by **over 70%** and improving audit traceability.
- Built **interactive KPI dashboards** and script-based data validation workflows to track supplier performance metrics.
- Refactored and modularized legacy automation scripts into reusable templates, adopted by **multiple quality control teams**.
- Partnered with engineering and quality teams to translate operational challenges into scalable backend tools and reporting solutions.

PROJECTS

Media Store DBMS | *Python, Oracle SQL, CustomTkinter*

Jan 2025

- Developed a **desktop database system** with CRUD operations and SQL query execution.
- Designed **CustomTkinter UI** and integrated with **Oracle XE 21c** via `cx_Oracle`.

Fullstack URL Shortening Service | *React, Flask, Firebase, Azure, Docker*

Sep 2023

- Built a **React + Flask fullstack URL shortening platform** with responsive UI.
- Deployed the platform on **Azure App Services** using **Docker** containers.

EDUCATION

Toronto Metropolitan University

Expected Graduation: Dec. 2026

Bachelor of Science, Computer Science

Toronto, ON

- Relevant Coursework: Data Structures, Unix, Web Development, Databases, Computer Security

TECHNICAL SKILLS

Languages & Front End: JavaScript, TypeScript, React, HTML/CSS, Node.js, CustomTkinter

Back End & Data: Python, Java, C/C++, Flask, BigQuery SQL, Oracle SQL, Firebase

Tools & Workflow: Git, GitLab, Docker, Jira, Google Apps Script, VS Code, Google Sheets API
